

From mom to another mom ...

On the occasion of the advent of the holy month of Ramadan, I would like to present to every mother three series that help her leave a beautiful memory that she makes with her little one and helps her to implant religion in his/her heart and behavior and leave a trace in his/her heart that motivates him/her to wait for this month every year. I ask God to reconcile our deeds in this blessed month, to open all the doors of goodness and ease for us, and to make our family one of the flags of Islam.

These activities can be prepared and make a box to put them in, which increases the enthusiasm of the child on a daily basis. You can also make with your child his own rosary from beads

Before each activity, I will provide you with clues and tips that will help you to consolidate the idea in your child's mind with an explanation of each activity and how to implement it. This job is completely free and it's from my personal design to help you apply ideas that need some explanation, you will find them in my Instagram account. There will be simple videos explaining the idea for you if you need to understand
